

Your Logo on the IFS Finance Contract

Now you can have ***your own company logo*** on the IFS Finance Contract printed from the latest release of our software.

Just complete these four easy steps:

1. Obtain your logo as a computer graphic.
2. Convert graphic format to windows bitmap (.BMP) this can be done with many graphics applications including Windows Paint. Keep the file size reasonable, a 10KB or 20KB size file will be just fine.
3. Save the logo as “BrLogo.bmp” in the IFS software directory of your PC, usually C:\ifs
4. Print a contract and admire your logo.

If you have difficulty converting your logo to the .BMP format email the original to webmaster@ifs-finance.com and request that we do the conversion for you.
